

## Talk on undergraduate admissions of HKU

It was our pleasure to have invited Ms Emily Mak the representative from HKU Admissions and Academic Liaison Office to give a talk to S.5 students about different faculties, programmes and admissions of the university on 3<sup>rd</sup> May 2016.

In the talk, Ms Mak provided a lot of valuable admission information of HKU to our students, such as the curriculum and admission requirements of different programmes, services and facilities of the university, etc. She also encouraged the students to make good preparation for choice of tertiary education programmes in next academic year.

After the talk, our students also joined tutor groups chaired by students who are currently studying in HKU. Some of the student tutors are also our alumni. All the students were much benefited from the talk and tutor groups.
