

## World Discovery Workshop 2016

World Discovery Workshop 2016 was jointly organized by English Club, Western Club and the Alumni Association on 5th July 2016. We were honoured to have invited AIESEC in Hong Kong Polytechnic University to provide our students with global awareness and knowledge through intercultural communication.

During the workshop, they had chance to get in touch with foreigners in English and enhance their interest and confidence in using English. They developed a mindset of cultural acceptance and they made friends with peers of different nationalities. Students enjoyed and were all activity engaged in the activities.
