

MIT AppInventor Summit 2016

Our students, S.4E Lai Hon Man, Xiong Qi Yuan, Lo Cheuk Wun and Lee Wing Yiu were awarded the Grand Price in the Finals in the AppJamming Summit 2015 in Hong Kong with over 100 participating teams. They were invited to join the MIT AppInventor Summit 2016 in Boston and received a sponsorship from First Code Academy.

MIT AppInventor Summit was a 3-day event held in the Media Lab of the MIT. The summit mainly focused on AppInventor, a popular platform for creating Android application. Workshops and talks about the new features of AppInventor were included in the first two days. A hackathon related to environment aspect was conducted at the same time. The last day featured on the poster presentation which allowed participants to introduce their Android app. In addition, attendees had an opportunity to exchange skills and knowledge with each other.
