

Congratulations to our alumnus, Mr. NG Chun-ting, Elton,
for conquering Mount Everest

Our alumnus Mr. NG Chun-ting, Elton, who graduated in 1995 and is now a registered physiotherapist and an elite athlete, reached Himalayan peak (8848.44 m) at 6:00 a.m. on 20th May 2017, and was the seventh Hongkonger to achieve the goal. Our teachers and students are all proud of him.

Through participating in The Duke of Edinburgh's Award (currently named as The Hong Kong Award for Young People) in junior secondary school, Elton developed his interest in hiking and orienteering. Since 1997, he took part in various orienteering events and was awarded numerous prizes. Since then, he set to challenge himself and he has conquered Mount Kilimanjaro (5895m), the highest mount in Africa, and Island Peak (6189m), the highest mount in Nepal. On 30th September 2016, Elton successfully reached Mount Manaslu and became the second Hong Kong people to have this achievement.

Our students are strongly encouraged to learn from Elton's fearlessness and embrace of challenges.
