

Integrate! Youth Development and Training Project on Integration

Our students participated in Integrate! Youth Development and Training Project on Integration organized by Treat in 2016-2017. Through experiential learning and various team-building exercises, our students were trained to become Ambassadors of Integration, bearing the mission of integration to their peers and the community. By intensive training and interaction, their self-confidence, social skills, leadership and problem solving abilities are greatly enhanced. On 21 May 2017, they were presented awards by Mr. Fernando Cheung Chiu-hung, current Legislative Council member.
