

World Discovery Workshop

World Discovery Workshop 2016 was jointly organized by AIESEC from Hong Kong Polytechnic University, the English Club and Western Culture Club on 9 February 2017. During the workshop, students had a chance to get in touch with foreigners in English and enhance their interest and confidence in using English. They developed a mindset of cultural acceptance and they made friends with peers of different nationalities. The workshop also provided our students with global awareness and knowledge through intercultural communication. Students were all engaged in the activities.
