

S3 Career & Life Planning Activity
Tips on Senior Secondary Electives Selection

A sharing session – Tips on Senior Secondary Electives Selection was held for S3 students on 22 May 2017. This activity aimed at helping S3 students have deeper understanding about their targeted elective subject choices and have better planning for their future careers. Our old boys and girls from The University of Hong Kong and Chinese University of Hong Kong were invited to share their experiences and give advice on elective subject selection and preparation for the HKDSE Examination.
