

First Parents' Day 2023/2024 (23 February 2024)

The First Parents' Day in this school year was successfully held on 23 February, 2024 (Friday) with all parents participating in the event.

Our school holds Parents' Days twice annually in order to maintain strong bonds and foster close communication with parents, thereby enhancing overall teaching effectiveness.

Most of the meetings were conducted face-to-face, complemented by online meetings and telephone conversations, through which parents could gain a better understanding of their children's performance at school. Working hand in hand with parents, our school spares no effort in nurturing and cultivating our children.

Class teachers sincerely engage in discussions with parents regarding their children's academic progress and overall performance

Class teachers attentively engage in discussions with parents and students

The dual-class-teacher system in S1 helps parents gain a comprehensive understanding of their children's performance at school

Students express their gratitude and extend a warm welcome through creating artworks, while class teachers patiently listen to parents' feedback.

Our Reception Team is fully prepared to warmly welcome parents

Principal YUEN (Centre) and Assistant Principal LO Wai-yan (left) attentively listen to a parent's sharing

Assistant Principal Mr. TO Siu-wing (3rd right) actively engages in discussions with parents to exchange insights and perspectives on student development

A break area has been set up in the covered playground for parents to rest and interact with one another

Students carefully review the academic ranking list together with their parents
