Hong Kong Secondary Schools Software Development Invitational Contest 2023
(2 February 2024)

5E LAM Chi-hang won the **Silver Award** (Advanced Class) in the Hong Kong Secondary Schools Software Development Invitational Contest 2023 organised by the Hong Kong Association for Computer Education.

Secondary school students across Hong Kong have the opportunity to obtain the 'China Computer Federation Software Capability Non-Professional Level Certification' issued by the China Computer Federation (CCF). Through this competition, participants' algorithm design and programming abilities can be certified. The Award Ceremony was held on 2 February 2024 (Friday).
