

Greater Bay Guangzhou Study Tour
(26-27 February 2024)

40 of our S1-3 students joined the Greater Bay Guangzhou Study Tour held from 26 January 2024 (Friday) to 27 January 2024 (Saturday). Accompanied by 4 teachers, they visited historical and cultural sites including Yongqing Square, Shamian Architectural Complex, Chen Clan Academy, Thirteen Hongs Museum and Historic Site of Ancient Whampoa Anchorage, as well as newly developed areas and technological facilities (Nansha Pearl Bay Cluster, Guangdong Science Centre) in Guangzhou. The two-day trip not only enriched teachers' and students' knowledge of the history, culture, and the latest development of our Motherland, but also helped them understand the developmental potentials of the Greater Bay and the role of Hong Kong in the future development of the nation, boosting their sense of national identity.

Our students visit the Chen Clan Academy

Our students attentively listening to the guide in the Guangzhou Thirteen Hongs Museum

Field trip in Shamian
