

## Reception of Curriculum Experts from the Mainland

(3 November 2023)

On 3 November 2023 (Friday), 14 curriculum experts from the educational institutions in the Mainland, including Beijing Normal University, Peking University, Beijing Academy of Educational Sciences and Guangzhou Zhixin High School visited Heung Chung to learn about the implementation of the Citizenship and Social Development (CS) curriculum in the school.

During the visit, our student representatives shared with the guests the implementation of the CS curriculum in our school. They also introduced students' learning outcomes displayed on spot. Then, the student representatives led the guests in a guided tour on school campus. Afterwards, the Head of the CS Department, Ms. LEE Sze-ming opened her CS lesson for observation, showing how students' knowledge about the history, culture and latest development of the Mainland could be boosted through study tours. Finally, a discussion session in groups was arranged to provide more opportunities for the experts to raise questions and for our teachers and students to share their experiences.

Principal YUEN, Mainland curriculum experts, teachers and students of our school join the Seminar on Development of Curriculum and Instructional Materials between Mainland China and Hong Kong
