

Chinese Culture Week

(6 May to 10 May 2024)

Our school successfully organised its Chinese Culture Week from 6 May 2024 (Monday) to 11 May 2024 (Friday). The five-day event was a celebration of Chinese culture, presenting students with a chance to immerse themselves in and acquire knowledge about various facets of Chinese heritage.

The Chinese Culture Week featured a range of vibrant and engaging activities. They include workshops, exhibitions, games, performances, field trips, and flag-raising competitions. In those workshops, they created mini flower plaques, carved woodware, engraved stamps, made flour dolls and hand-painted acrylic minibus route signs. Students were able to have fun and gain hands-on experience in creating traditional arts and crafts, enjoying the unique enchantment of the process as they were fully dedicated and involved in the activities.

Meanwhile, exhibitions of different Chinese themes and traditions were held at the school hall. Through sixteen meticulously designed display boards, presentations, and game booths, students were able to deepen their knowledge of Chinese traditional culture in an engaging and enjoyable manner. The themes of the exhibitions included Chinese landscapes, traditional Chinese medicine, handicrafts, music, festivals, architecture, clothing, cuisine, sports, and folk acrobatics. Moreover, footages of the Mainland Study Tour of the Senior Secondary Subject of Citizenship and Social Development, exchange activity with Jinhua Sister School and winning designs of the School Bulletin Board Design Competition on National Security were also displayed. During the exhibitions, students enhanced their understanding of traditional Chinese culture through trying on different Chinese ethnic costumes and handcrafting bamboo grasshoppers, cultivating a deep appreciation for the fundamental nature of Chinese culture.

In addition, the captivating traditional Chinese music and dance performances, with their melodious music and graceful dances, provided a sensory delight for the students, giving them the opportunity to personally experience and learn about Chinese music and dance.

During the Chinese Culture Week, with the full support of our School Committee members, the Chairmen and members of the Rural Committees of Kam Tin and San Tin earnestly guided our S1 and S2 students to visit the two places respectively to gain an in-depth understanding of Chinese traditional culture as well as the history and characteristics of the Chinese cultural heritage such as Kat Hing Wai and Tai Fu Tai.

To further raise students' awareness of national security and enhance their patriotic sentiments, Inter-class Flag-raising Competition was held to help cultivate students' teamwork and discipline spirit.

Furthermore, to encourage students' active participation in the Week, different awards were given, including the Best Booth Content Award, Best Booth Design and Decoration Award, Best Demonstrator and Receptionist Award, Most Active Participation Award, and Best Reflective Writing Award.

With the concerted effort of all stakeholders, the Chinese Culture Week was a great success. It was truly a valuable learning opportunity for students to understand and experience traditional Chinese culture and promote Chinese cultural heritage, which helps enhance their sense of national identity.

Different members of the school attend the opening ceremony in the school hall.

Principal YUEN delivers a speech during the opening ceremony.

Students actively participate in Chinese Culture Week activities held in the school hall.

Principal YUEN, parent volunteers, and students work together to weave bamboo grasshoppers.

Students perform Chinese Dance.

Chinese Orchestra perform melodious and captivating music.
