Senior Secondary Python Programming Contest

(6 July 2024)

5E KWOK Chun-hang, **5E LAM Chi-hang** and **5E LOUIE Chun-hin** were awarded the **Distinction Award** in the Senior Secondary Python Programming Contest organized by the Department of Computing of the Hong Kong Polytechnic University.

The contest aims to nurture students' interest in learning programming and enhance their problem-solving abilities. By engaging in the process of program development, students have gained a great sense of fulfilment when they successfully overcame the challenges, which fueled their ongoing pursuit of growth and development.

Award	Awardee
Distinction Award	5E KWOK Chun-hang 5E LAM Chi-hang 5E LOUIE Chun-hin
