

The Mathematical Modelling Competition for Secondary Students (MMCSS) 2024

(29 July 2024)

3D LEUNG Nga-yau, **3E CHAN Lok-hang** and **3E LIANG Eddie** were awarded the **Outstanding Award (Junior Secondary)** in the Mathematical Modelling Competition for Secondary Students (MMCSS) 2024. The competition was organized by the Department of Mathematics and Information Technology at The Education University of Hong Kong, commissioned by The Education Bureau.

The competition is a part of the Programme on Promoting Mathematical Modelling for Teachers and Students in Secondary School. In the competition, students are required to demonstrate their understanding in Mathematical Modelling and applications of Mathematics in solving a problem based on real-life scenario.

| Award | Category | Awardee |
|-------------------|------------------|--|
| Outstanding Award | Junior Secondary | 3D LEUNG Nga-yau 3E CHAN Lok-hang 3E LIANG Eddie |
