

Visiting the National Security Exhibition Gallery

(2 November 2024)

Our members in Auxiliary Medical Service (AMS) Cadet Corps visited the National Security Exhibition Gallery on 2 November 2024 (Saturday). The National Security Exhibition Gallery is the first thematic gallery in the Hong Kong Special Administrative Region (HKSAR) dedicated to the systematic promotion of National Security Education. It is also the first National Security Education base in the HKSAR. It aims at enhancing our members' appreciation of the significance of national security, impressing upon all citizens their duties and responsibilities in safeguarding national security, as well as deepening the community's general knowledge and understanding of national security related concepts and issues.
