

High Flyers' Sharing Session cum Secondary One Admission Information Talk (30 November 2024)

Three consecutive sessions of High Flyers' Sharing Session cum Secondary One Admission Information Talk were successfully held on 30 November 2024 (Saturday), with 382 participants, including Primary Six students, their parents, principals, assistant principals, and teachers from 43 neighbouring primary schools.

Principal YUEN marked the beginning of the event by giving a welcoming speech, in which he introduced our school to the participants. Right after that, a team of our students gave a lively and amusing sharing on their fruitful learning experiences, colourful school life and outstanding achievements of their fellow schoolmates. The sharing was followed by a video in which our graduates, who are also alumni of different primary schools, sent words of encouragement to motivate the young pupils to work hard and learn well, wishing them every success in reaching their ideal secondary schools. Our students continued with tips on answering questions during the Secondary One admission interview. In the Introductory Session on Allocation of Discretionary Places, our Assistant Principal, Ms. KWAN Ki-shun provided essential details regarding Secondary One admission. In the Question & Answer Session, Principal YUEN and our Assistant Principals provided sufficient information to respond to parents' enquiries, helping them get well informed of the S1 admission procedure.

The event concluded with a campus tour led by our student representatives and Parent-Teacher Association volunteers. Participants visited booths about science experiments, STEAM robotics demonstration and drone flying show; they also appreciated a variety of brilliant artwork and award-winning projects of Technology for Life. Lastly, they enjoyed the great performances by the Chinese Orchestra and the Rope Skipping Team, as well as playing table tennis with our school team members. It was truly entertaining and gave the participants a taste of Heung Chung's school life.

Overall, the event was a delightful experience, showcasing the vibrant campus life at our school.

Highlights of the event are shown in the photos below.

Student MCs: 5E LAM Yi-nag, 4F CHAN Ho-ming Joson, 5E LAW Cheu-hei

Principal YUEN Kwong-yip gives a welcoming speech.

Students give a presentation on their fruitful learning experience

Students share interview tips with primary school pupils

Outstanding graduate WONG Ching-hong shares his learning experience in Heung Chung
