

2024/25 HPV Vaccination Catch-up Programme (1st dose)

(11 February 2025)

The Human Papillomavirus (HPV) Vaccine Catch-up Programme (1st dose) was successfully held on 11 February 2025 (Tuesday). Our school was honored to invite Dr. HUNG Chi-yun's team – Cambridge Paediatrics Outreach to provide the vaccination service. A total of 100 S.5-6 female students received the HPV vaccine.

The Human Papillomavirus (HPV) vaccine can prevent cervical cancer, as well as other cancers and diseases caused by HPV infection. Receiving this vaccine effectively reduces the incidence and mortality rates of these diseases.
