

Hong Kong Olympiad in Informatics 2024/25

(25 January 2025)

6E LAM Chi-hang won the **Bronze Award** (Senior Group) in the Hong Kong Olympiad in Informatics 2024/25, while **1B ZHOU Alfred** and **4F CHAN Lok-hang** won the **Honourable Mention** (Junior Group). It is organised by the Hong Kong Association for Computer Education (HKACE) and the Education Bureau, and co-organised by the Department of Computer Science and Engineering, Faculty of Engineering of Chinese University of Hong Kong, as well as the Department of Computer Science, College of Science and Engineering of City University of Hong Kong.

Started in 1997, Hong Kong Olympiad in Informatics (HKOI) is a prestigious annual programming competition for secondary school students, focusing on algorithmic problem-solving and programming skills, and serving as the preliminary selection contest for the International Olympiad in Informatics (IOI) Hong Kong team. The Award Ceremony was held on 25 January 2025 (Saturday).
