

## Visit to National Security Exhibition Gallery

(12 & 24 February 2025)

All our students paid a visit to the National Security Exhibition Gallery on 12 February (Wednesday) and 24 February 2025 (Monday). The National Security Exhibition Gallery is the first thematic gallery in the Hong Kong Special Administrative Region (HKSAR) dedicated to systematic promotion of national security education. It is also the first national security education base in the HKSAR. The activity effectively enhanced students' appreciation of the significance of national security, including their duties and responsibilities in safeguarding it, while also deepening their general knowledge and understanding of related concepts and issues.

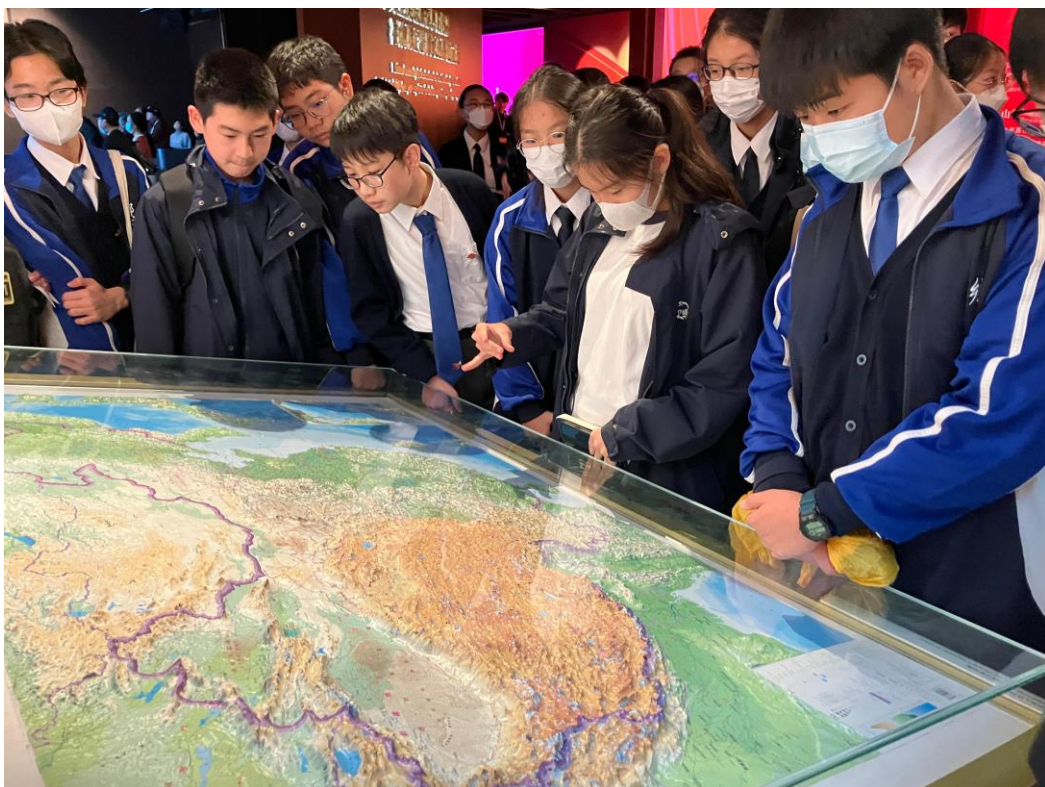

Students have a deeper understanding of our Motherland and their patriotic sentiments have further been cultivated

Group photo outside the National Security Exhibition Gallery

Our students are paying close attention to the the docent's explanation

Our students get to learn more about our country through the exhibits

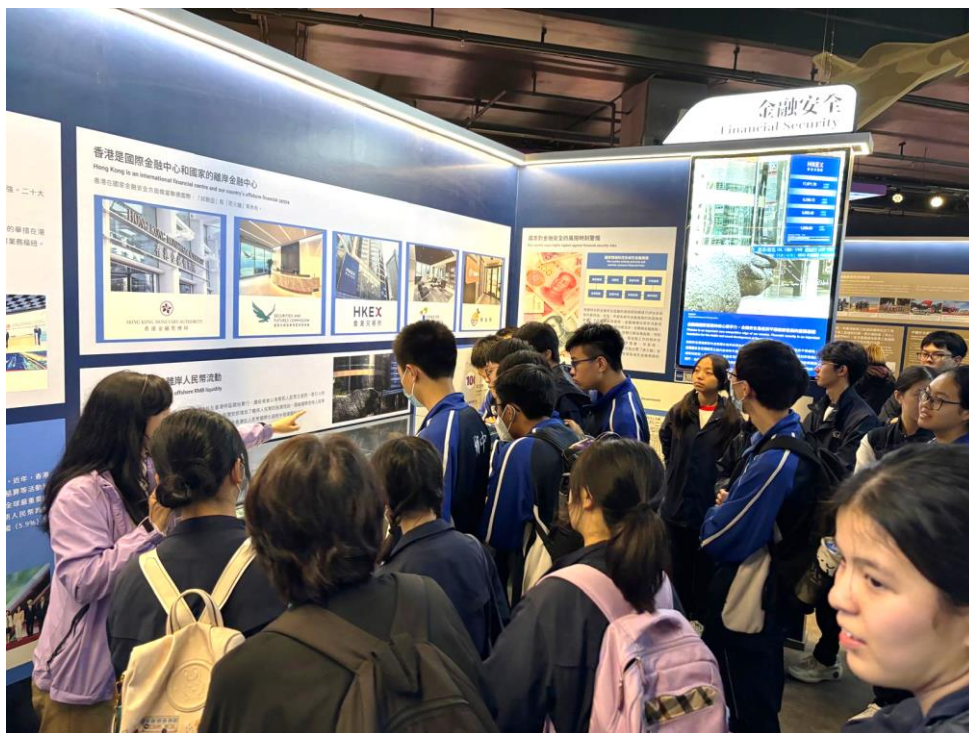

Students understand ways to ensure national security through watching videos

Our students watched a 3-dimension video with their teachers

Students are fully engaged as they listen to the docent's introduction

Students learn about finance security of our country
