

PolyU SCIENCE Young Talents Competition 2025

(29 March 2025)

5E CHAN Chun-yiu, **5E CHOY Kin-long** and **5E LEE Kwun-yee** achieved **Second Runner-up** in the PolyU SCIENCE Young Talents Competition 2025, organized by the Faculty of Science at the Hong Kong Polytechnic University. After a highly competitive preliminary round, 40 elite teams advanced to the finals, where our talented students proudly earned this prestigious honor. The Award Presentation Ceremony was held on 29 March 2025 (Saturday).

The competition offers two rounds of competition to assess participants' theoretical knowledge while also giving them a chance to gain practical laboratory experience. All questions and tasks throughout the competition are centred around four areas: Biology and Food Science, Chemistry, Mathematics and Physics.
