

## Astronomical Training Programme for Secondary Students 2024/25

(30 May 2025)

**4E GUO Yi-kit, 4F ZHOU Aure** and **5E LIU Sze-yu** got the **Certificate of Achievement** in the Astronomical Training Programme for Secondary Students 2024/25, co-organised by the Hong Kong Space Museum, the Department of Physics at the Chinese University of Hong Kong, and the Hong Kong Astronomical Society. The program took place between November 2024 and May 2025.

Throughout the training, the students demonstrated consistent dedication and hard work in completing a wide range of astronomy-related tasks, including celestial motion, diurnal motion, stargazing, and the use of astronomical telescopes. Through diverse and engaging activities, the students deepened their understanding of astronomy and strengthened their scientific literacy, showcasing both intellectual growth and practical proficiency. The prize presentation ceremony was held at the Hong Kong Space Museum on 30 May 2025 (Friday).
