

## The 4<sup>th</sup> Hong Kong Youth Aerospace Innovation Competition

(31 May 2025)

**1B JIAN Mong-yu** and **1B TSE Sum-yuet** got the **Third Prize** in the 4<sup>th</sup> Hong Kong Youth Aerospace Innovation Competition, organized by the Hong Kong New Generation Cultural Association. In the preliminary round, they completed a research report exploring the impact of space food on astronauts' health. In the final round, they presented their research findings to the judges, demonstrating outstanding performance.

Throughout the preparation and rounds of competition, the students not only experienced the importance of teamwork but also honed their writing and presentation skills. They gained new knowledge about aerospace technology and had the opportunity to appreciate the innovative designs and creative ideas from other schools, broadening their horizons and benefiting immensely from the experience.

Award	Category	Awardee
