

## Mainland Study Tour of Citizenship and Social Development

(14-15 November 2025)

To enable students to gain a deeper understanding of our Motherland's history, culture, and latest development, as well as to cultivate a sense of national identity and patriotism, our school participated in the Study Tour of Citizenship and Social Development (CS) organized by the Education Bureau from 14 November 2025 (Friday) to 15 November 2025 (Saturday). A total of 145 S.5 students were accompanied by Ms. KWAN Ki-shun, Assistant Principal, and 14 teachers to visit Nansha and Humen.

On the morning of 14 November, our teachers and students travelled to Guangzhou South via high-speed rail and visited the Nansha New Area Planning Exhibition Hall to gain an in-depth understanding of Nansha's development positioning and planning blueprint within the Greater Bay Area. In the afternoon, the group visited Nansha Dongsheng Agricultural Park, where students learned about the operational process of supplying organic vegetables to Hong Kong and experienced vegetable packaging first-hand. Afterwards, they visited China Resources Thermal Power to understand how an eco-friendly power plant achieves the goal of 'ultra-low emissions' and to appreciate the importance of green energy technologies.

On the second day, our students visited the Opium War Museum to learn about the historical background of the Opium War, understand the humiliation and struggles experienced by the nation, and develop a stronger sense of national identity and patriotism. In the afternoon, students visited the Dongjiang Column Memorial Hall to learn about the history of the War of Resistance and the significant role played by the Dongjiang Column in defending the country, thereby gaining a deeper appreciation of the revolutionary spirit and patriotic values.

Through this two-day itinerary, students not only deepened their understanding of the economic development of the Greater Bay Area, but also reflected on the nation's historical struggles and achievements, further cultivating a sense of national identity and social responsibility. The study tour was well-organized and provided students with valuable learning experiences, laying a solid foundation for their future studies and career development.

Our teachers and students part a group photo in front of the Opium War Museum

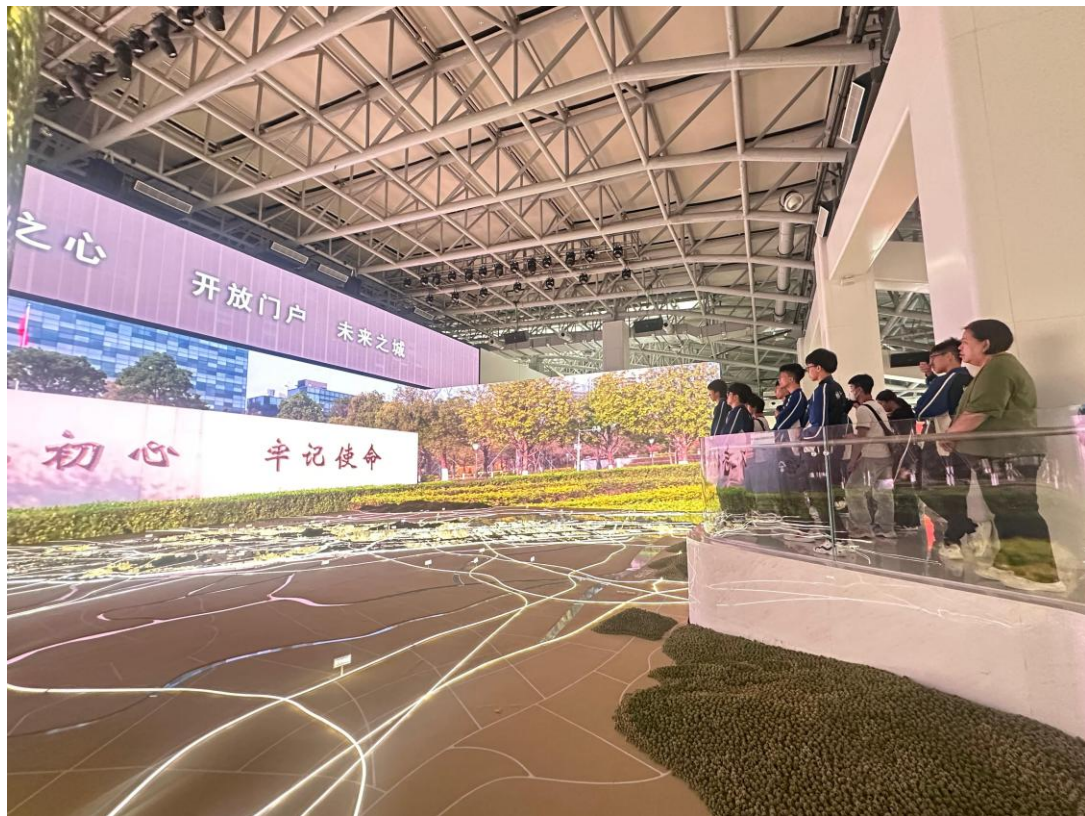

Before departure, Principal Yuen takes a group photo with S.5 students at the school

S.5 students depart from West Kowloon Station to Guangzhou South Station by high-speed rail

Students carefully read the information on the display board

Students view the Nansha's development positioning and planning blueprint within the Greater Bay Area

Our students listen attentively to the introduction about the development of Nansha New Area

All S.5 students take a group photo in front of the Nansha New Area Planning Exhibition Hall in Guangzhou

Our students are excited to visit Nansha Dongsheng Agricultural Park

The students are getting ready to visit Nansha Dongsheng Agricultural Park with excitement

Students carefully learn how to package organic vegetables

Our students seriously experience packaging organic vegetables

Our students get hands-on experience in packaging organic vegetables

The students successfully package the organic vegetables and display their learning outcomes

Students visit the factory supplying vegetables to Hong Kong

Students learn the names and features of various vegetables

Students visit a farmland

Our students take a group photo at China Resources Thermal Power

Students visit the facilities inside the power plant

Students listen attentively to how the local power plant minimizes pollution from power generation

Students visit Humen Opium War Museum
