

## **Life-wide Learning Day**

(29 January 2026)

Our school held a 'Life-wide Learning Day' on 29 January 2026 (Thursday), giving students the chance to step outside the classroom and engage in diversified activities to broaden their horizons.

Field trips to Yuen Long Six Heungs were organised for S1 and S2 students. The activity aims to enhance our students' understanding of Chinese culture and history, develop their appreciation for traditional Chinese architecture, and strengthen their sense of national identity. Thanks to the docent service meticulously arranged by respective Rural Committees of Six Heungs, our students had the opportunity to explore historically significant village buildings, including ancestral halls, study halls, and temples.

For S3 to S5 students, class teachers arranged various activities tailored to their learning needs, fostering better communication and collaboration. Meanwhile, students who remained on campus participated in interactive workshops, experiencing an alternative learning model that proved equally rewarding. In addition, a day camp was organised for our Healthy School Ambassadors, which empowered them to take on leadership roles in promoting healthy lifestyles on the school campus.

The various activities on Life-wide Learning Day not only provided our students with valuable learning experiences beyond the classroom, but also further nurtured their cultural awareness and teamwork spirit, which fully demonstrates our school's commitment to promoting whole-person development.

Activity		Participating Students
Yuen Long Six Heungs Historical and Cultural Exploration Activity	Shap Pat Heung	Classes 1A and 1C
	San Tin Heung	Classes 1B and 1C
	Pat Heung	Classes 1C and 1D
