

2025/26 Second Parents' Day

(8 July 2026)

On 8 July 2026 (Wednesday), our school successfully held the second Parents' Day of this academic year, facilitating home-school communication through diverse formats. The event aimed to provide parents with feedback on students' learning progress and developmental performance, while also providing a platform to jointly discuss nurturing strategies to support students' holistic development. Teachers engaged in in-depth exchanges with parents on academic performance, behavioral development, and talent cultivation, offering professional advice and putting the concept of home-school collaboration into practice.

On Parents' Day, our school organized a special 'Parent Education Activity', which was both enriching and enjoyable. It not only helped alleviate parenting stress but also provided practical childcare resources, leaving parents with a rewarding and fulfilling experience. Meanwhile, the Parent-Teacher Association organized a school uniform recycling drive to promote waste reduction, redistribute old uniforms, and foster students' sense of environmental responsibility.
